## Tell Your Story!

Do you have Medicaid coverage? Do you have a loved one that has Medicaid coverage?  
Do you serve Medicaid patients? Then, we need your help...

I Am Medicaid IL wants to educate residents about the critical health insurance that Medicaid provides and the opportunities it creates for individuals and families across our state.

To do this, we're asking individuals, parents, health care providers, educators and others to share their first-hand experience with Medicaid and the difference it's made in their lives and the lives of their children, patients, students and employees. We're working to collect stories that will be shared through social media and through our website. Join with us!
