TOP FIVE REASONS
Residents Choose
# *DynaMed Plus®*

You need trusted information to answer your clinical questions quickly and easily. *DynaMed Plus* can help you:

#1: Frame a clinical question.

DynaMed Plus aids in filtering the evidence to help structure clinical questions. "With the succinct bullet point format and detailed evidence-based information, residents can use *DynaMed Plus* to easily find a specific answer to a question in PICO format." – *Thomas Hahn, MD ; Assistant Professor (CHS) ; Department of Family Medicine and Community Health ; University of Wisconsin School of Medicine and Public Health*

#2: Choose an evidence-based medicine information resource that is current and accurate.

DynaMed Plus content is updated 24/7/365. The clinically practical outline structure of *DynaMed Plus* topics offer the most concise evidence-based recommendations with easily accessible supporting references. Content is organized by disease state and includes comprehensive information in one topic, enabling users to get accurate answers quickly.

#3: Find an answer in less than two minutes.

DynaMed Plus is designed to allow you to find answers quickly. Topics are presented in an easy-to-read bulleted format. Key points on the background, evaluation and management of a condition are presented at the top of each topic, optimizing speed to answer and eliminate the need to scroll or search. "Time is always a factor. Residents and fellows need to learn how to find the information they need quickly from a source that is unbiased." – *Daniel A. Ostrovsky, MD; Duke University School of Medicine - Pediatrics*

#4: Go deep and read the original research when you want to.

DynaMed Plus provides easy access to the original research for those occasions when you want to dive deep. Each *DynaMed Plus* topic includes links to the full text, allowing you to read the primary medical literature.

#5: Make a decision based on the evidence, even when the evidence is weak.

You need to make a decision, even when there is little or no evidence. *DynaMed Plus* provides all of the evidence in a transparent way and uses GRADE to classify recommendations as Strong or Weak. "As a resident, I quickly learned there are a lot of gaps in evidence. What you thought was hard evidence often ends up being expert recommendations based on poor quality evidence. *DynaMed Plus* puts out the facts allowing me to make educated decisions based on each individual patient." – *John W. Greene, MD; Hospitalist at Rex Healthcare*
